

Real Mexican Drawn Work

It's hard to think of a gift for a woman that shows better the taste of the giver, than a piece of Hand-drawn Mexican Work. It is exquisite in design and decidedly particular in workmanship. To examine and see how much work even a small piece represents one wonders how it can be done for double the amount. And still we have any number of pieces that would do justice to any table at prices so moderate it seems like robbing the poor women who make them.

Just Take a Look at Them.
